

FALL PROTECTION SYSTEMS

Barge Rope Safety System

FPS is Proud to Introduce the New Barge Rope Safety System

Fall Protection Systems introduces a rope style fall protection system for use on covered hopper barges. The rope system is easy to set up and use, and accommodates up to 2 Users. The light weight system, contained in a shouldered duffel bag, weighs approximately 20lbs.

It can easily be transferred onto the barge and carried about without any difficulty. The easy to install system takes just a few minutes to set up, and removal is just as easy.
