

## Portable Platform PAL100

The GREEN Portable Platform (PAL100), is designed to provide safe access and fall protection on the tops of tank and bulk trucks.

This self-supporting unit provides portable access with a safety cage designed for applications that do not allow the ability to use permanent truck loading platforms, or when space is limited.

### Features

GREEN Portable Platforms have many unique features:

- Adjustable height from 9' to 13'
- Self-supporting design.
- Work platform 2' x 4' long, with grip strut surface
- Rubber bumpers to prevent damage and direct contact with the vehicle
- Ergonomically designed, manual cable operation
- Outriggers are adjustable and designed to be used at all heights
- Optional tow bar available
- 1-year Manufacturer's warranty.

### Materials of Construction

Rugged construction includes:

- Welded steel with aluminum cage
- 2, 8" swivel casters with brakes
- 2, 8" fixed direction casters

### Finish

- Hot Dipped Galvanized
- Gray enamel / Safety Yellow
- Custom finishes available

### Self-Supporting Design

- Counterweighted design allows access without being supported by the vehicle.
- Rated to 500 lbs.

### Portable Transloading System

- Unit can be customized to create a portable transloading system.
- Ask your sales representative for more details.

### Safety Cages

- Various, custom designed safety cages are available

### Engineering

Custom engineered, computer designed units are available. Contact us for more information on getting started today!

### Options
